Organization: Wild Ones

Description: Teachers and students across the US are expanding learning opportunities by enhancing their schoolyards with nature trails, butterfly gardens, prairies, woodland wildflower preserves, and similar projects. These projects enrich the learning environment and provide aesthetic and environmental benefits.

By planning, establishing and maintaining such projects, students learn valuable life skills – including patience and teamwork. They can engage parents and the wider community in a project they can point to with pride for years to come.

We offer assistance for all aspects of such projects. Cash grants under \$500 are available for plants and seeds, and in-kind donations from [Nursery Partners](#) can help stretch these dollars. We can help you locate experts and information specific to your area – anywhere in the US. In the past decade, we've supported over a thousand such projects, and we can use this experience to help you.

Eligibility: Teachers and students across the US

Amount of Awards: Cash grants under \$500 and in-kind donations
